

/home/gene/Work/dimmer
/main/include/strap.h

```
graph BT; A["/home/gene/Work/dimmer/main/dimmer.c"] --> B["/home/gene/Work/dimmer/main/include/strap.h"]; C["/home/gene/Work/dimmer/main/strap.c"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/gene/Work/dimmer/main/include/strap.h. Below it are two white boxes representing source files: /home/gene/Work/dimmer/main/dimmer.c on the left and /home/gene/Work/dimmer/main/strap.c on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
